

Simony Monteiro

Artistic Director of Orsolina28 Art Foundation

Simony Monteiro, Brazilian by origin but New Yorker by birth, trained and danced at the prestigious SAB - School of American Ballet and the Alvin Ailey Dance Theatre. She founded Orsolina28 Art Foundation in 2016, transforming one of the most picturesque corners of Monferrato into one of the most internationally respected centers for dance, with the aim of offering professionals a space to train and create. At Orsolina28 artists dance, experiment, eat, sleep and live together. Students, choreographers, companies and guests get to experience authentic sharing, reconnect with nature and regenerate body and spirit. The fellowship and energy created permeate the place, becoming elements as essential as the training offered and the spaces.
